ABOUT ME

Motivated and detail-oriented Engineering student currently pursuing a Bachelor's degree in Information Science at JSS Academy of Technical Education, Bengaluru. Proficient in front-end web development with strong skills in HTML, CSS, and JavaScript. Well-versed in Data Structures and Algorithms, with a keen interest in problem-solving and system design. A quick learner and enthusiastic team player, eager to contribute to innovative projects and gain hands-on experience in the tech industry.

PROJECTS

■ Energy Management System

- An interactive dashboard built using Power BI to visualize and analyze power consumption data across various countries. It showcases the types of energies used and their corresponding amounts, providing insights into energy usage patterns globally

■ Amazon Homepage Clone

- Developed a fully responsive clone of the Amazon home page using only HTML and CSS. The goal was to recreate the look and feel of Amazon's user interface while strengthening my front-end development skills. All styling was done using CSS

■ Personal Website

- Designed and developed a personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and background. The site features a clean, modern layout with sections including an "About Me", contact form, and social media links. It's fully responsive across all devices

SKILLS

- C
- JAVA
- PYTHON (basics)
- MONGODB
- HTML
- CSS
- JAVASCRIPT
- SQL
- Bootstrap
