SUMMARY

Skilled in designing AI/ML solutions using NLP, deep learning, and predictive analytics. Proficient in Python, C, and frameworks like TensorFlow and Flask. Passionate about delivering innovative, scalable, and impactful AI-driven applications.

EDUCATION

- JSS Academy Of Technical Education** 2022 - Present
B.E in Artificial Intelligence and Machine Learning CGPA: 9.1
- Sri Kumaran Children's Home Composite PU College** 2020 - 2022
PUC, Bengaluru Percentage: 92.5%
- Holy Child Convent** 2017 - 2020
State Board, Bengaluru Percentage: 96.16%

EXPERIENCE

- Zidio Development** Feb 2025 - March 2025
Data Analyst Intern Online
 - Focused on analyzing IPL(Indian Premier League) data to extract valuable insights and present them through interactive dashboard.

PROJECTS

- JSSATE College ChatBot (Customized AI Chatbot)**
Designed and developed a context-aware chatbot that leverages NLP and machine learning to provide user-friendly, intelligent interactions in various domains. Engineered to understand and respond to user queries with human-like precision and efficiency.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, C++, SQL
Developer Tools: VS Code, Jupyter Notebook
Frameworks: TensorFlow, PyTorch, Flask
Databases: MySQL
Data Visualization Tools: Tableau, Power BI
Soft Skills: Teamwork, Problem-solving, Public Speaking
Coursework: Data Structures, Algorithms, DBMS, ML
Areas of Interest: Machine Learning, Natural Language Processing, Computer Vision

POSITIONS OF RESPONSIBILITY

- Volunteer,** National Service Scheme 2022 - Present

LANGUAGES KNOWN

English, Hindi, Tamil, Kannada
