- PROJECTS:
- JSSMedico: Revolutionizing Healthcare Management

 - JSSMedico is a cutting-edge healthcare platform developed for the JSS Academy of Technical Education community
 - Designed to streamline the connection between patients and doctors, enhancing the overall healthcare experience
- Product Review System

 - Web-based System - where users can leave and read reviews, and based on the data can judge about the product.
 - This can also help the manufacturer to get the statistic about the product.
- Portfolio Website (using HTML, CSS, JS)

 - Designed and implemented a personal website showcasing professional projects and skills.
