## PROJECTS

---

- **MERN Book Store App**  
*A full-stack book store application built with the MERN stack (MongoDB, Express.js, React, Node.js).*
  - The app allows users to view, search, and manage a list of books. MongoDB Atlas is used for data storage, and Axios handles API calls. The backend was thoroughly tested using Postman to ensure smooth and accurate communication between the client and server. The app features a clean, responsive UI built with React
