PROJECTS

Mini Smart Notice Board using Arduino UNO ,

September 2024 - December 2024

- In this work, we show working of smart notice board using arduino uno with the help of bluetooth for connectivity and LCD to display information which is shared to it with a distance .where we can also use LoRa connectivity method to communicate with long ranges around 2-5kms in urban areas and 10-15kms in suburban areas .which is mainly used to reduce a manual process and utilize time efficiently.

Cyber Threat Detection using ANN,

- In this project we are working to detect cyber threats and solve the problems using cnn under ann as cnn provides us the more efficient data about cyber threats which helps us to know more about it and than solve a problems. As we are still working to detect and slove cyber threats.

AWARDS AND HONOR

- Honored for 10th board marks .
- Participated in district level ball badmiton during my secondary schooling.
