Education

JSS Academy of Technical Education(VTU), Bengaluru

B.E. in Information Science and Engineering

Dec. 2022 – June 2026

CGPA: 8.8

Vidya Mandir Ind. Pre University College, Bengaluru

2nd PUC or 12th (PCME Stream)

Aug. 2021 – May 2022

Percentage: 91.6%

Bunts Sangha RNS Vidyaniketan, Bengaluru

10th

March. 2019 – July 2020

Percentage: 90.2%

Projects

AI-driven mock interview platform with Next.js and Vapi AI

Jan 2025

- An AI-powered web platform that simulates realistic job interviews.
- Users can practice interviews tailored to specific roles and industries, engage with AI-generated interviewer personas, and receive instant feedback on their performance.

Resume Parser

Nov 2024

- It intelligently processes resumes in PDF or Word formats using advanced NLP and machine learning models. It extracts key candidate information—such as name, skills, experience, and education then even classifies the resume into a job category using a prediction model
- Designed for recruiting platforms and career services, this tool automates resume screening and enhances candidate-job matching.

Full Stack AI Car Marketplace with Next JS

Ongoing

- The platform leverages AI for features like smart car recommendations, image recognition, and pricing predictions.
- Supabase handles real-time backend services and authentication, Prisma manages the database layer, and ArcJet ensures security

Certifications

Mastering Full Stack Development: From Frontend to Backend, (Udemy.)

Advanced SQL , (Kaggle)

Machine Learning with Python, (IBM Developer Skills Network)

Artificial Intelligence A-Z 2024: Build 7 AI + LLM & ChatGPT, (Udemy)

Technical Skills

- **Programming Languages:** Java, JavaScript, Python, MySQL, MongoDB, C, HTML, CSS
- **Frameworks:** React.js, Next.js, Node.js, TailwindCss, Flask
- **Tools:** Git, GitHub, VS Code, IntelliJ , PyCharm ,WebStorm
