SUMMARY

Innovative engineer with a good foundation in C and Python programming, complemented by expertise in CAD software like Fusion 360. Proven ability to build complex robotic systems and RC planes, showcasing problem-solving skills and teamwork. Experienced in utilizing sensors and actuators to enhance project outcomes.

EDUCATION

Bachelor of Engineering – Robotics and Automation (2022-26)

- Ongoing

1st to 5th SEM – CGPA: 6.87

JSS ACADEMY OF TECHNICAL EDUCATION BANGALORE

SKILLS

Communication

Programming (ROS 1, C programming, Python)

Data Structures in C programming (Basics)

CAD (AutoDesk Fusion 360, Solid Edge, Catia)

Microcontroller programming (Arduino, Esp-32)

Mini-Computers (Raspberry Pi)

Experience

Attended multiple RC aeromodelling competitions along with a few Robotic Competitions

LANGUAGES

English

Kannada

Marathi

Hindi

HOBBIES

Gaming, Playing Football, Listening to Music
