Projects

Automated Spotify Playlist Creation

GitHub

- Developed a automated spotify creator using HTML, CSS, and python, enabling users to create the playlists automatically based on their choices.
- Integrated with spotify developer account that easily helps to track down the number of users signed in and using it .
- Optimized automated playlists for better user experience .

Blockchain Powered Tamper-Proof Audio Evidence System(On going)

GitHub

- The Blockchain powered tamper-proof system uses blockchain to securely store the audio files,ensuring that any tampering of audio files can be detected immediately.
- Provides an user friendly platform to verify the audio files whether it is tampered or not.
- Ensures stored data can not be altered or deleted.

Technical Skills
