Projects

Image insight:Deep learnig for Caption Generator

- Image caption automatically generates textual description in line with the contents ascertained in a picture, which is the association of knowledge of Computer Vision (CV) and Natural Language Processing(NLP).

Hospital bed slot booking system

- The project is a mini DBMS-based bed slot Booking System.The backend is powered by Java Spring, connected to a MySQL database. Users can search bed slots, hospital management can keep track of the number of beds available, and manage their bookings efficiently.

Extra-curricular activities

- Member of college cultural dance team; participated in multiple inter-college events and won several dance competitions.
- Active volunteer in NSS (National Service Scheme); contributed to improving a local government school by creating educational charts, painting classrooms, and organizing clean-up drives.
- Cultural coordinator of Samyog(ISE dept fest) and conducted many cultural events.

Certifications

- Artificial Intelligence and Machine Learning Training Course- Infosys Springboard
