About

Myself Abhishek Adithya, pursuing my Bachelor of Engineering at JSS Academy of Technical Education, Bangalore. I'm a motivated learner with

a keen interest in applying engineering concepts to solve real-world

problems.

I'm also enthusiastic about teamwork, innovation, and continuous growth in both technical and

personal aspects

Skills

C++

Python

C

Vlsi

Education

S.Manasa school

Apr 2019 - Aug 2020

10th

Completed my 10th in sslc with 95%

Christ junior college

Feb 2020 - Mar 2021

12

Completed my 12 in state syllabus with 60%

JSSATEB

Aug 2022 - Present

ENGINEERING

Pursuing my engineering in electronics and communication

Projects

Nov 2024 - Jan 2025

Lora Based Health Monitoring System

To design an health monitoring wristband for enhancing patient care and health-care operations through the integration of IoT and LoRa technology

Arduino

Health care monitoring system for paralysis patients

To design an health monitoring system for paralysis patients using iot devices and brain computer interface
