Projects

Automated Spotify Playlist Creation

- Developed an automated Spotify playlist creator using HTML, CSS, and Python, enabling users to generate playlists based on preferences.
- Integrated with the Spotify developer account to monitor user activity and usage.
- Optimized playlist generation for improved user experience.

AR Construction Simulator

- Built using Unity and ARCore/ARKit to enhance safety training and site planning through immersive 3D visualization.

Certifications

- Software Engineering and Agile Software Development – Infosys Springboard
- MongoDB for SQL Experts – MongoDB
- PMP Basics – Simplilearn and SkillUp
