ABOUT ME

I'm Varsha, a Computer Science Engineering student with a strong interest in Artificial Intelligence and Web Development. I'm passionate about exploring new technologies and constantly expanding my technical skill set. I enjoy collaborating with others and sharing knowledge to grow together. As a tech enthusiast, I strive to stay updated with the latest trends and innovations in the field.

EDUCATION

2022-2026 JSSATEB University	BE(Hons) I am currently pursuing a Bachelor of Engineering in Information Science and Engineering at (JSSATEB), a reputed institution affiliated with Visvesvaraya Technological University (VTU). The program has provided me hands-on experience through labs, projects, and industry-relevant coursework
2020-2022 PES PU College	Pre-University I completed my Pre-University Course (PUC), specializing in PCMB subjects, from PES, where I developed a strong academic base and scientific curiosity that led me to pursue engineering.
2018-2020 Siddaganga Public School	Secondary Education I completed my Secondary School Education (Class 10) under the CBSE Board, where I built a strong foundation in core subjects including Mathematics, Science, and English. This phase of education helped shape my discipline, curiosity for technology, and readiness for further academic challenges.

PROJECTS

2022-2023	AI Powered Medical Chatbot with Multimodal LLM An AI-powered medical chatbot with a multimodal large language model (LLM) is an intelligent virtual assistant designed to assist patients and healthcare professionals by understanding and responding to both text and image inputs.
2023-2024	An Unsupervised Anomaly Detection System for Medical Insurance This project identifies suspicious claims by detecting patterns that deviate from normal behavior, without using labeled data. It uses techniques like clustering or Isolation Forests to flag potential fraud. This helps in early fraud detection where labeled fraud cases are limited.
