SUMMARY

A dedicated third-year BE student in Information Science and Engineering at JSS Academy of Technical Education, Bangalore, with a solid foundation in programming. Passionate about utilizing Visual Studio Code and Jupyter Notebook to enhance coding skills and work on innovative projects. My ultimate goal is to continuously develop my technical expertise and contribute to impactful software solutions.

SKILLS

- C Programming Skills: Intermediate Level
 - Python: Intermediate level, with practical experience in data manipulation and data visualization.
 - Basic Front-End Development Knowledge (HTML, CSS, and JavaScript)
 - JAVA: Basic knowledge of object-oriented programming language.
 - Development tools: Experiencing with Visual Studio Code, Jupyter Notebook, Tableau, Power BI, and Google tools.
 - Design and presentation: skilled in Canva and AI tools for creating engaging visual content.
-

CERTIFICATIONS

- Strategy Formulation and Data visualization: IIT Madras
 - Data Structures and Algorithms: Infosys Springboard
 - Artificial Intelligence and Machine learning Training: Infosys Springboard
 - Networking Basics: CISCO Networking Academy
 - Participated in Hackathon conducted by BMSCE (PhaseShift)
-

EDUCATION

JSS Academy of Technical Education
BE in Information Science and Engineering
Bangalore -560 060

Dec 2022 - July 2026

PROJECTS

1. InfoBot: Automated Data Extraction Tool -

A project where the chatbot is implemented in our existing college website based on few python libraries such as Beautiful Soup, Pandas and RAG.

2.AI-Driven Animal Re-identification -

A project where the animals are identified by tagging, DNA analysis, patterns that leverages collecting the data automatically and deep learning algorithm by using Python and its libraries. (Working)
