Summary

A dedicated third-year B.E. student in Information Science and Engineering at JSS Academy of Technical Education, Bangalore, with a solid foundation in programming and problem-solving. Passionate about learning and applying emerging technologies, with a keen interest in development and innovation. Outside the academic sphere, I express my creativity through singing. Eager to contribute to dynamic development teams and grow continuously in the tech industry.

Education

JSS academy of technical education, BE in Information Science and Engineering

Dec 2022 – July 2026

• GPA: 9.38

MES Chaitanya PU College Sirsi, Pre-University education

2020 - 2022

• Percentage: 88.67

SVEM High School,SSLC • Percentage: 96.96

2018 - 2020

Projects

Waste Segregation Using Transfer Learning

• The project "Waste Segregation Using Transfer Learning" employs the YOLOv8 object detection model to automatically classify waste into biodegradable and non-biodegradable categories. By training the model on a custom-labeled dataset, it enables real-time, accurate waste detection and classification.

Hospital bed slot booking sysytem

• The project is a mini DBMS-based bed slot Booking System. The backend is powered by Java Spring, connected to a MySQL database. Users can search bed slots, hospital management can keep track of the number of beds available, and manage their bookings efficiently.

Extra-curricular activities

- Part of the NSS (National Service Scheme). As part of the NSS, I helped adopt a local government school, where we created educational charts, painted classrooms, and cleaned the surroundings to improve the learning environment.
- Cordinator of Samyog(ISE dept fest) and conducted many events.

Certification

- Introduction to modern AI by Cisco
- Networking Basics by Cisco
- Foundation of CyberSecurity by Coursera
- Data Structures and Algorithms: Infosys Springboard

Skills

- C programming(advanced), Python(intermediate), Java(intermediate)
- HTML,CSS,Javascript
- SQL,mongoDb
- LaTex,PowerBI,Tablue
