Introduction to web development

Projects

Safe Guard: A Complete Women's safety solution with emergency response

Safe Guard is a comprehensive women's safety solution designed to provide quick emergency response in critical situations. It features real-time location tracking, SOS alerts, and emergency contact notifications, ensuring rapid assistance when needed. The system empowers women with a reliable, accessible tool for safety and peace of mind.

- The *Safe Guard* project was successfully developed and tested, demonstrating quick emergency response through real-time location sharing and instant SOS alerts.
