Objective

Passionate Computer Science and Engineering student with a strong foundation in AI and software development. Dedicated to leveraging technical skills and problem-solving abilities to build innovative solutions. Eager to explore emerging technologies, enhance expertise in AI, and contribute effectively as a software engineer. Committed to continuous learning and applying knowledge to real-world challenges.

Education

Jss Academy of Technical Education, Bengaluru   **December 2023-May 2026**

Bachelor of Engineering in CSE(AI&ML) **Present**

Pes Polytechnic, Bangalore   **August 2020 - June 2023**

Diploma in Computer Science and Engineering
CGPA: 8.03

Relevant Coursework

- Data Structures and Algorithms
- Database Management System
- Fundamentals of Java
- Full Stack Development
- Operating System
- Python
- Artificial Intelligence
- Machine Learning
- SQL

Experience

Alpha Tech Academy   **March 2022 – April `2022**
Python Internship

- Gained hands-on experience in Python programming, including data structures, algorithms, and real-world applications.
- Worked on projects to enhance problem-solving and coding skills.

Alpha Tech Academy
Java Full Stack Development Training   **February 2023 –May 2023**

- **Developed expertise in front-end and back-end technologies, including Java, Spring Boot, Hibernate, and database management.**
- **Built and deployed web applications following industry best practices.**

Alpha Tech Academy
E-Vegetable Project (Java-based Application) 2023

- Designed and developed an online vegetable marketplace using Java technologies.
- Implemented features like product listing, cart management, and secure transactions.
- Improved user experience with responsive UI and optimized database performance

ANANTHAM 2025 Hackathon — 2nd Place
AI-Powered Job Portal with ML-based Prediction and Recommendation

- Developed an AI-powered Job Portal with ML-based job prediction and personalized job recommendations.
- Implemented machine learning models to match users with best-fit job opportunities based on skills, interests, and trends.

Technical Skills

Languages: Java, Python, HTML/CSS, JavaScript, SQL, React js.
Developer Tools: VS Code, Eclipse, Terminal, Google Colab, Jupiter Notebook, python Id3.
Technologies: Git and GitHub, Agile Methodology
Soft skills: Verbal communication, Empathy, Teamwork, conflict resolution, Adaptability, Time and Deadline Management.

Certifications/ Achievements

- Getting Started with Git and GitHub – Coursera (IBM)
- Google AI Essentials -Coursera (Google)
- Overview of MongoDB and the Document Model -MongoDB
- Agile Methodology- Infosys Springboard
- Basics of Frontend Web Development with React.Js - TWS
- JavaScript - Infosys Springboard
- Python Zero to Hero – Guvi
- Full Stack- Alpha Tech Academy
- Successfully participated in Hackathon JSS4SoC'24, organized by GeeksforGeeks, enhancing problem-solving and teamwork skills.
- ANANTHAM 2025 Hackathon — 2nd Place
