OBJECTIVE

To learn and grow by contributing effectively to real-world projects with dedication and curiosity. continuously pursuing professional growth. My goal is to utilize my diverse abilities to make a positive impact, collaborate with a diverse team, and achieve both personal and organizational objectives.

EDUCATION

JSS Academy of Technical Education   **Bengaluru, IN**
B.E. || Information Science and Engineering || CGPA: 7.61/10   *December 2023 - Pursuing*

PVP Polytechnic College   **Bengaluru, IN**
Board of Technical Education || CSE ||**CGPA:8.2/10**   *January 2020 - May 2023*

Amaravani High School   **Bengaluru, IN**
Karnataka Secondary Education Examination Board || Per: 75.2%   *June 2019 - March 2020*

PROJECTS

Mini Project
Student Helpdesk Using Chatbot   **Bengaluru, IN**
Chatbot Developer   *October 2024 - December 2024*
- Developed a chatbot for student enquiries using HTML, CSS.
- Both front-end as well as back-end were implemented
- PYTHON was used for enabling the chatbot to respond to user inputs.

Major Project
Enhancing Intrusion Detection System with Machine Learning   *March 2025 - Working on*
Implementing advanced ML algorithms (e.g., SVM, Random Forest, Neural Networks) to improve anomaly detection and classification of malicious network traffic. Leveraged datasets like KDD Cup 99 and NSL-KDD for model training and evaluation. Hope to achieve increased accuracy, real-time threat detection, and adaptability to novel cyberattacks, significantly strengthening system security and response capabilities.

CERTIFICATIONS AND TRAINING PROGRAMS

NYU Introduction to Cyber Attacks
- Completed all the given modules and video tutorials in this Program   *November 2022*

Google Foundations of Cybersecurity
- A certification course on cybersecurity   *October 2024*

Google Connect and Protect: Networks and Network Security
- A certification course on networks and security   *November 2024*

GlowLogics Cyber Security and Ethical Hacking
- A certification course on ethical hacking   *March 2024*

SKILLS & INTERESTS

Technical Skills: Data Structures, Core Java, Advanced Java, Oops, python(basics)

Soft Skills: Team management, Active listening, Positive Approach, Disciplined, Visionary, Multi-Lingual.

Interests: Cricket, Running, Cycling, Gym Fitness, Reading, Non-Fiction Books.
