CAREER OBJECTIVE

Motivated and detail-oriented engineering student currently in the 6th semester, with a strong interest in applying analytical and problem-solving skills to real-world challenges. Seeking opportunities to gain practical experience, enhance my technic

EDUCATION

B.Tech, Computer Science & Engineering   2022 - 2026
JSSATE, BANGALORE

CGPA: 6.90/10

TRAININGS / CERTIFICATIONS

Project Management
Oct 2024 - Dec 2024

Infosys Springboard, Virtual

Introduce the software engineering elements, principles and practices Provide insight into various activities involved in software development Provide an overview of Waterfall Model and Agile Methodology Introduce the fundamentals of developing Quali

PROJECTS

House Price Prediction
Feb 2025

Using linear regression or similar models to predict house prices based on various features.

Malware detection using machine learning
Nov 2024 - Dec 2024

This project aims to develop a machine learning-based system to detect malicious software (malware) by analyzing patterns in executable files or system behavior. By training models on labeled datasets containing both benign and malicious samples, the system can learn to identify hidden patterns and make accurate predictions

Spam email detection
Nov 2024 - Dec 2024

Building a model to identify spam emails using machine learning techniques.

Password Generator
Aug 2024

The program generates a random password of a specified length, including letters, numbers, and symbols.

SKILLS

- C++ Programming
- Financial Analysis
- Pandas
- Project Management
- Flutter
- Prompt Engineering
- Python
