CAREER OBJECTIVE

To work in a firm with a professional work driven environment where I can utilize and apply my knowledge ,skills which would enable me as a fresh graduate to grow while fulfilling organizational goals.

EDUCATION DETAILS

JSS Academy of Technical Education, BE in Electronics and Communication.   2022-2026

- CGPA:7.5/10

Amara Jyothi PU college, PCMB   2020-2022

- Percentage:85.83

Deccan International School   2019-2020

- Percentage:89.6

Project

- Developing a Deep Learning Algorithm to Detect and Predict the disease caused to the Tomato plant using Convolutional Neural Network.

- The CNN Architecture classifies the images taken from database based on specific features and train the algorithm to detect and classify in to different disease category.

- The algorithm validates the detection capability on a different dataset to improve its accuracy and finally gets an accuracy of 92%.

Skills

Languages: C++, Python, Object-Oriented Programming, Data Structure & Algorithm.

Soft Skills: Problem Solving, Leadership, Time Management, Good Communication

Languages

- English, Kannada

Hobbies

- Reading books, Playing cricket

Certifications

- **Programming in python ,internet of things from NPTL, data structure in C++ from NPTL**
