Career Objective

Aspiring software engineer with a passion for building impactful digital solutions. Eager to contribute strong programming and problem-solving skills in a challenging tech role while continuously learning and growing in the field of software development.

Education

JSS Academy of Technical Education, Bengaluru

Bachelor of Engineering in Information Science

December 2021 – May 2025 | CGPA: 7

Projects

Women's Safety App

Developed an Android-based application aimed at ensuring women's safety using GPS tracking and emergency alerts. Integrated real-time location sharing and SOS functionality to notify emergency contacts.

Tools/Technologies: Java, Android Studio, Firebase

Face Swap Web App

Built a web-based application that allows users to upload images and swap faces using machine learning. Utilized OpenCV and Dlib/Mediapipe for face detection and alignment, with integration of SimSwap for realistic results.

Tools/Technologies: Python, OpenCV, Dlib, SimSwap, Flask

Technical Skills

Languages: Java, Python, C, HTML/CSS, SQL, Angular JS

Developer Tools: VS Code, Eclipse, Terminal, Google Colab, Jupyter Notebook, Python IDLE
